ABOUT HURSULTAN

Hursultan was founded in 1977 and started producing die-cast aluminium tea kettle accessories. With the rising popularity of stainless steel in the 1980's Hursultan started production of stainless steel tea kettles, becoming a leader in its sector in Turkey.

Production of stainless steel cookware followed shortly after. Starting in 2004, Hursultan initiated its first production of aluminium cookware and is manufacturing products with ceramic, granite, stone, PTFE coatings with the licence of ILAG. Various sizes and colors of aluminium cookware exist in Hursultan's product range.

Until 2013 total covered area of production had reached 15.000 m2. In september 2013 Hursultan opened a new fully automated production plant that is spread in an area of 15.000 m2. In total, Hursultan has a covered production plant area of 30.000 m2 and is fully integrated with the production of raw material, packaging, painting of accessories. Currently, Hursultan exports 30% of its production to over 75 countries in all continents.

• **swiss**crystal

At all times, ceramic items accompany humans in their daily life. The material stands for reliability, hardness and durability. With ILAG CERAMIC and ILAG XERADUR we interpreted this idea a new and applied it to the modern kitchen - customized for all applications in the area of cookware and bakeware with intensive use.

Swiss Crystal is a high-quality ceramic coating with advanced technology. Its enhanced durability and non-stick coating provide extended and healthy use.
